Prevention, Diagnosis and Treatment of Peri-implant Disease

Speaker: Munib Y. Derhalli, BSc, DMD, MBA, MSc

PROGRAM DESCRIPTION:
This program will offer a comprehensive overview of the causes of peri-implant disease, as well as instruction in how to recognize complications related to it. Approaches to preventing peri-implant disease will be discussed, including what is known about cement-induced peri-implantitis. Treatment of the ailing and failing implant will also be covered.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:

- Explain the differences between peri-implant mucositis and peri-implantitis.
- Better select implants that may minimize the risk of developing peri-implantitis.
- Design a recare program that may help prevent development of peri-implant disease.
- Understand options for treating peri-implant mucositis and peri-implantitis including the ailing/failing implant.

Speaker: Munib Y. Derhalli, BSc, DMD, MBA, MSc

Dr. Derhalli graduated from Oregon State University in 1985 and received his Doctorate from Oregon Health Sciences University School of Dentistry in 1989. While serving as a General Dentist in the military, he completed a Masters in Business Administration and then a Masters of Science residency in Periodontology at the University of Oklahoma Health Sciences Center. He has authored and co-authored several papers associated with implants and bone regeneration and currently lectures nationally and internationally. Dr. Derhalli has held teaching appointments at the University of Oklahoma Graduate Periodontics Department and at Oregon Health Sciences University Graduate Periodontics Department (Associate Professor) with an emphasis on surgical implantology in the post-doctorate program. Dr. Derhalli is a Diplomate of the American Board of Periodontology and is a member of several professional associations.

Dr. Derhalli has a financial relationship with BIOMET 3i, LLC resulting from speaking engagements, consulting agreements and other retained services.
