Treatment Guidelines for Immediate Placement and Immediate Restoration in the Aesthetic Zone

Speaker: Dean C. Vafiadis, DDS

PROGRAM DESCRIPTION:
This program will provide attendees with a strong theoretical basis on the management of single-tooth implants in the aesthetic zone. A secondary objective will be to maximize peri-implant soft-tissue aesthetics around definitive restorations – critical elements for achieving sustainable aesthetics.

PROGRAM OBJECTIVES:
At the end of the program, the participant should be able to:
- Understand the literature pertinent to immediate implant placement and restoration, especially relating to treatment indications and contraindications.
- Distinguish preoperatively between high, medium, and low aesthetically demanding conditions (e.g. lip line, smile design, etc.).
- Review clinical and radiographic data prior to treatment planning this type of restoration.
- Converse with surgeons and dental lab technicians regarding the specifics of immediate implant placement and restoration.
- Identify and order the requisite components to accomplish this type of treatment.
- Be familiar with different methods of fabricating immediate single-unit non-occlusally loaded restorations.

Speaker: Dean C. Vafiadis, DDS

Dr. Vafiadis received his dental degree and Prosthodontic Specialty Certificate from New York University College of Dentistry. He is an Associate Clinical Professor and the Program Director of the Full Mouth Rehabilitation CE Course at NYU College of Dentistry. Dr. Vafiadis is a member of the American College of Prosthodontics, Academy of Osseointegration, International Congress of Oral Implantologists, American Academy of Esthetic Dentistry, and American Dental Association. He maintains a private practice limited to prosthodontics and implant dentistry in New York City, New York.

REGISTRATION AND CANCELLATION POLICY
In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. BIOMET 3i reserves the right to cancel courses that do not meet minimum enrollment no later than 14 days prior to the course date. BIOMET 3i is not responsible for reimbursement of a non-refundable airline ticket or any other travel expenses in the event that a course is cancelled. In the event that a registrant needs to cancel, written notification must be sent to 3ipbg-education@biomet.com.

ADA CERP®
BIOMET 3i is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. BIOMET 3i designates this activity for 4 continuing education credits.

TRANSPARENCY REPORTING
All payments and “transfer of value” items provided to health care providers will be reported as required by federal and state laws and regulations. “Transfer of value” items include meals and continuing dental education credits.
